

## Dimensions

A(mm)	splitter	1	2	3
400-800	1	A/3	-	-
801-1600	2	A/4	A/2	-
1601-2000	3	A/8	A/3	A/2

## Description

Standard rectangular bends (SRB) are used for changing direction of ventilation system in different planes, both vertical and horizontal.

It produced of galvanized steel metal sheet with built-in flanges (P20 and P30) for better rigidity.

Bends may be manufactured with angle 1 to 135 degrees.
